

AquaSolar® GL235 Solar Controller

- Go green with a little help from the sun

The AquaSolar® GL235 Solar Controller is America's best-selling entry level microprocessor based solar pool heating control system.

The controller automatically maximizes solar heat collection by actuating a 24V valve when there is solar heat available.

GVA-24 Actuator

With a single-setting, precision temperature adjustment - water is heated to a set temperature and circulated back into the pool or spa.

PSV 3-way Valve

Advanced features include programmable recirculation freeze protection, nocturnal cooling, and optional booster pump. LED indicators show status of system operations.

*Solar panels sold separately.

HAYWARD® ColorLogic® Accent Lights

BETTER Illumination Versatility

The Hayward® ColorLogic® LED Accent Lights are ideal for discreet, uniform pool and spa lighting or for highlighting various backyard features such as waterfalls, spillovers, or even palm trees or walkways.

Available in two brightness levels, they are bright enough to light an entire pool or spa.

The 1 ½" lights can be installed for wet or dry use within a 10' radius of the pool. For wet use, the lights are UL listed for both in-wall and on-floor applications (without the use of a guard). When submerged, the top of the lens should be no less than 4" (10 cm) below normal water level.

The high lumens model can be used in two brightness modes.

ColorLogic® Palette

The ColorLogic® Accent Lights are used with Hayward ColorLogic® Laminar and

ColorLogic® Bubbler illuminated water features to create the ultimate ambience.

The lights can be used with Hayward OmniLogic® and OmniHub™ automation systems and OmniDirect™ to unlock exclusive features like enhanced navigation, dimming and speed control plus access to programmed light shows and more luxurious colors.

Any Smart phones, smart watches and tablets shown not included. App only.

HCP3000 Series Commercial Pumps

- Go green with a little help from the sun

The **Hayward HCP 3000 Series** pumps are engineered for heavy-duty durability to provide the optimum solution for any pool delivering maximum performance and uncompromised efficiency.

Best in Class Performance:

HCP3000 Series pumps are the first 3" pumps to achieve hydraulic efficiency of more than 250 gallons per minute at 60' head (7 HP 60Hz model) saving more energy than any comparable pump on the market.

The oversized strainer basket is detachable and can be installed separately allowing for plumbing flexibility.

Detachable Strainer

TEFC motors in all models- plus a chemical resistant Viton® seal means less wear-and-tear and dramatically reduced down time.

Available in three phase versions for 2Hp, 3Hp, 5Hp and 7Hp, and in a 2.7HP variable speed version for 50/60Hz, it is a perfect match to trusted and proven Hayward commercial filtration systems.

The HCP 3000 Series pump is manufactured in the United States at the Hayward Clemmons, North Carolina facility.

NSF/ANSI Standard 50 Certified.

CSPAXI Series

- Electric Heaters

Hayward® CSPAXI Series electric heaters contain features and capabilities of heaters twice their size.

The heater can fit into compact spaces: under spa skirts and steps.

All CSPAXI models have 304 stainless steel tanks for longer life. The electric heating element also has a 304 stainless steel threaded head and a built-in safety sensor to protect the heater against dry firing.

Available in 5.5kW & 11kW, the simple-to-use CSPAXI has a dial control temperature setting and "heater on" indicator light.
