

ProSeries™

SAND FILTERS

BUILT BETTER

Hayward **ProSeries™** range of sand filters are made to NSF50 standards of durable corrosion proof materials for dependable performance and have a working pressure of 50psi. They feature a large pressure sand/water drain for rapid winterizing or servicing.

 ProSeries™
Top Mount

The top-mount and side-mount sand filters utilize a precision engineered umbrella-fold self-cleaning lateral system on a newly designed steel-less standpipe assembly to provide efficient flow and evenly distributed water for totally balanced backwashing and long-lasting performance.

 ProSeries™
Side Mount

Top-mount models are available with 7-position or 6-position **VariFlo™** control valve.

SP0714T

Side-mount models are available with 6-position **VariFlo™** or 2-position slide valve.

SP0710X62

ProSeries™ Sand Filters installed in a **Tandem System** allow equipment specifiers to design modular systems that allow for easy placement in the equipment room and convenient servicing of individual components without taking the total filtration system off-line. Replacement with readily available components ensure the immediate availability of spare parts and needed service and repairs to the equipment can be easily performed by technical staff already familiar with the equipment without the need for special tools.

PROHAYWARD Blü Media – BETTER FILTRATION

PROHAYWARD Blü Hi-Performance Filter Media can replace the sand in your filter for DE-like filtration quality.

Just one pound of PROHAYWARD Blü will do the job of 100 lbs of sand!

PROHAYWARD Blü **ProSeries™ Filter with ProHayward Blü** lasts longer than sand and will not degrade with flowing water. PROHAYWARD Blü media provides very little resistance to water flow. For variable speed pumps, you can decrease your pump speed and still maintain the same circulation flow rate.

PROHAYWARD Blü is sold in 1lb bags and is available in a master carton of 12 bags.

Contact Hayward IMG to order a sample of PROHAYWARD Blü.

PROHAYWARD™ Sealed Panel LED Lights

At the heart of the sealed panel underwater lights is the PROHAYWARD **UPR LED Panel**

UPR Sealed LED Panel

completely encapsulated in watertight resin for leak proof operation and rated 18W/12V to provide dazzling light. The RGB version provides 7 fixed color choices and 8 color changing shows using the on/off switch. The WHT version can be switched to either warm white or cool daylight. The panel has a VDE compliant cord and conforms to IP-68.

To suit different applications, UPR LED Panel is packaged with the required hardware and separately with different ABS face rims which have an embossed Hayward logo.

The UPR LED Panel can be used as a replacement for PAR56 lamps in the **3478**, **3481** and other Euro style lights.

3480 Euro Style Light

The **3480** light is an all-in-one European design underwater LED light supplied with niche and a flexible electrical conduit for in-ground pools. This light can be used as a complete replacement for the 3478 Eurolight.

3680 Nicheless Light

The **3680** light is designed for nicheless installation over the pool finishing.

The **5880** light is designed to be retroactively fit into any US style niche with its low profile of only 1.7cm.

5880 Universal Light

It can also be paired with an optional stainless steel face rim for installation in any US style niche.

UPR WITH SS Rim

Where permitted, the UPR LED panel may also be used in an underwater application without a face rim and without a niche.

plug n clear SALT CHLORINATOR

Powerline™ by HAYWARD

The **Powerline™** by Hayward® Plug n Clear salt chlorinator has a compact and attractive design that is suitable for small equipment spaces and can provides enough chlorine for small in-ground pools, above ground pools and spas.

Plug n Clear salt chlorinator is easy to install with no gluing required for the cell connections. The intuitive salt system comes pre-programmed with three modes of operation including a temperature-dependent mode.

The titanium plates are self-cleaning through programmable polarity reversal and multiple alarms for flow, low production and temperature ensure proper operation allowing you to relax.

The **Powerline™** by Hayward® Plug n Clear salt chlorinator ships from Europe and Wuxi.
